

THE RIGHT FIT FOR THE ROAD AHEAD

# EGR COOLER CONNECTOR TUBE

## HEAVY DUTY REPLACEMENT FOR MACK MP7 & MP8 ENGINE

Eliminate costly EGR cooler connector tube failures with the Wheeler Fit solution. Engineered for Mack MP7 & MP8 engines, our design resolves the common OEM cracking and deformation issues, minimizing downtime and maximizing your fleet's efficiency.

**Seal Area Durability:** Engineered to eliminate cracking and deformation, surpassing OEM performance.

**Enhanced Corrosion Protection:** Anodized coating ensures long-lasting resistance to rust and corrosion.

**Ultimate Longevity:** Heavy-duty design built for permanent installation, eliminating repeat replacements.

**Complete Installation:** Includes aftermarket seals (P/N 821071) for immediate use.

**Eliminate These Failures:**  
OEM doesn't hold on resulting in cracking and deformation.

**OEM Seal Compatibility:**  
OEM seals (P/N 1547253) available separately for your convenience.

**P/N 21434720MOD**
